Evidyaloka completes Six years

We take this cheerful moment to congratulate you for all your tremendous support and co-operation towards the development of evidyaloka. It has been six years now that we’ve built a lot of great relationships already, and we’re looking forward to strengthening them even further. With an acute shortage of 1.2 million teachers and learning outcomes at an all-time low, with the help of volunteers we have tried to bridge the gap in the remote areas of INDIA. The volunteer teachers are perfectly connecting the dots with rural kids.

We know that you care and have the passion to help and that is why we are here together.

Let’s not stop here but work together in making the dream of quality education for the children in rural India, a reality as Education is inoculation against disruption.

NEW CENTERS

Evidyaloka reaching out to more children in providing education
