eVidyaloka has grown from 45 centres in 6 states in the Academic Year 15-16 to 90 centres in the Academic Year 16-17, reaching out to 6000+ students with over 380 Volunteer Teachers. In the upcoming Academic Year, eVidyaloka looks forward to adding another 100 centres.

After the analysis of the students' performance in 56 centres for the Academic Year 16-17, it is a moment of pride to see a drastic improvement in their performance, with over 30% of the students scoring more than 70%. Over 40% of the students scored between 35 and 70 out of 100.

The journey of Hima Nandini from a Govt School to a Private School is inspirational, to say the least.. She attended the eVidyaloka Digital Classes in her 7th and 8th grades and immensely benefitted by becoming eligible for the National Merit cum Means (NMMS) Scholarship. She has also cleared the entrance exam of one of the top private schools in Trivuru.

Mr. Uday Shankar, Headmaster of UMS Shitalpur in Giridih, constantly strives to ensure that his students succeed academically, but is personally not very accustomed to technology and modern gadgets, until now. He suggested that he would personally monitor the progress of the students and the success of the Digital Classroom, and then allow the model to be continued in the school. Looking at the progress of the students, the Headmaster was so impressed that he fully supported the idea and extended his support so that the model can be applied effectively. He wanted his students to be active in the classes, therefore he involved all the children and teachers to be part of this endeavour.

Excited to announce the beginning of the Academic Year 17-18. Here's wishing the students all the best, and hope they excel with flying colours in the coming Year.
